

## **Natasa GIALLOUROU**

Natasa Giallourou PhD, holds the position of Field Metabolomics Specialist at Metabolon, USA. In her role, she provides scientific support for metabolomics applications in the biopharma and academic sectors.

Prior to joining Metabolon, Natasa served as a Marie Skłodowska-Curie Postdoctoral Fellow at biobank.cy. Her research projects involved integrating metabolomic data with other 'omics' data in population-based studies, with a focus on identifying biomarkers for complex diseases. She also worked as a Postdoctoral Research Associate at Imperial College London, where she specialized in utilizing metabolic phenotyping to address global health challenges, particularly in the field of public health nutrition. In 2017, she obtained her PhD in Nutritional Metabolomics from the University of Reading. She holds an MSc in Nutrition and Health from Wageningen University and a BSc in Biology from the University of Leeds.

Natasa sits on the Board of Directors of the International Metabolomics Society.
